

## HGSA-History Graduate Student Association-

Membership is open to all History Graduate Students  
We meet at regular intervals through the school year.

HGSA is an organization through which graduate students can become informed of and address issues and problems related to their education at WSU

In addition

HGSA provides a vehicle through which graduate students can formally respond to the History Department faculty and other University bodies on issues of concern

The organization has representatives on University and Department committees and, perhaps most important, HGSA representatives attend Faculty and Graduate Studies meetings and keep the organization's membership informed about developing issues that impact graduate students.

In a nutshell- HGSA is an advocacy organization dedicated to the interests and needs of History Graduate students

In order for the organization to have a strong University and Department voice it needs the active participation of graduate students and you are urged to get involved.

Fliers will be posted throughout the History Department with the agenda, time and place of upcoming meetings. HGSA minutes will be posted on the Bulletin Board located outside the Department office.
